The American Leica, no. A tough and durable rangefinder camera that has survived the decades with an awesome lens, yes. The 1950s made Argus C4 (aka C-Four as is written on the lens barrel) has a faster Cintar lens at f/2.8 than its predecessor C3 and goes to f/22; shutter speeds B, 1/10-1/300 with a leaf type shutter. They did make a more rare version of the C4 with a changeable lens, but ...

*I would imagine the manual install in package manager has an upgrade process which retains settings. If you want to try, it might be safe to first install some other app manually (an older version), configure some settings, and then attempt to install the newer version to see what the package manager does about that. I have not tried to upgrade my docker app on the ds416 play, though. I can ...*

*I also make no guarantees against bans made by the developer for using these. They don't currently have an anti-cheat system in place that I'm aware of (especially since all the saves are stored locally and not server-side), but that probably won't stop a developer from adding you to some whitelist if they catch wind of bad behavior. The game executable does have a connection in Task Manager ...*
