Marxism seeks to explain social phenomena within any given society by analyzing the material conditions and economic activities required to fulfill human material needs. It assumes that the form of economic organization, or mode of production, influences all other social phenomena including wider social relations, political institutions, legal systems, cultural systems, aesthetics and ideologies.

Piketty teaches at the Paris School of Economics and is a brilliant polymath. The 1,000-page "Capital and Ideology" reads like a textbook. It almost offers an economic history of the world and covers feudalism, colonialism, caste, slavery, and the French Yellow Vests. There is far too much information for the casual reader to absorb and it is overwhelming.

Society's superstructure includes the culture, ideology, norms, and identities that people inhabit. In addition, it refers to the social institutions, political structure, and the state—or society's governing apparatus. Marx argued that the superstructure grows out of the base and reflects the ruling class' interests. As such, the superstructure justifies how the base operates and

Communist founding ideology in China was interpreted by a crucial intermediary – Joseph Stalin – and Xi Jinping is going back to that ideology. The truth of the first idea can be seen from an exhibit at the tomb of the third Han emperor near Xi'an, which explains the government in the second century BCE by comparing it closely to the functional departments of the State Council today.
