The Ford Bronco II is a compact sport utility vehicle (SUV) that was manufactured by the American manufacturer Ford. Closely matching the first-generation Ford Bronco in size, a single generation of the Bronco II was produced from January 1983 to January 1990, for the 1984 to 1990 model years. Derived from the Ford Ranger compact pickup truck, the model line was produced as a three-door wagon ...

My first car was a hand-me-down 1984 Ford Bronco II that my parents bought new. I took possession of it as a hot-to-trot teenager in 1997, happy to finally be a licensed driver and glad I was lucky enough that my parents could gift me a car, even if it was over a decade old and even if my end of the bargain was to get a job bagging groceries to pay for insurance and maintenance.

The transmission in your Ford truck is one of the most costly components to replace. Early detection of problems can save you a lot of time and money on costly repairs. Testing the transmission line pressure is one proactive step that will alert you to potential problems. Replacing the line or draining and replacing the transmission fluid may be all that is needed. Dirty transmission fluid can ...
